Introduction

The guide explains an easy method to improve PC performance in a short while and provides information about what Remo Optimizer does, when you can make use of this software, and how to optimize your system using Remo Optimizer. It even contains required system specifications to install the software.

What is Remo Optimizer?

Remo Optimizer is an advanced tool to boost your PC performance in few steps. The tool can be used for many purposes, such as

- To optimize and speed up system performance
- Safely repair registry issues and clean junk files
- Automatically backs up registry files and one click process to restore it
- Provides control over memory management, internet optimization and drive management

What You Can Use It for?

As the name implies, Optimizer comes handy to solve issues related to poor PC performance, such as:

- Slow PC start up
- Hard Drive filled with junk files
- High memory usage
- File System Errors
- High hard drive Fragmentation
- Clogged internet speeds

Key Features

Remo Optimizer removes and fixes issues in areas like COM and ActiveX, shared DLL, application paths, empty file types, invalid font entries, empty register keys, file associations, uninstall entries, invalid help/user entries, file extension, invalid sound files, junk files.

- Allows to remove or disable start up programs to make your PC run faster
- With scheduler, you can configure the software to scan your PC on scheduled time and day for automatically maintaining system
- Comes with set of tools which can make your PC faster and cleaner, such as Privacy Cleaner, Drive Defrag, Internet optimizer, System memory, Disk checker, Drive Temperature, Drive utilization

System Requirements

Remo Optimizer works well with almost all versions of Windows OS to fix your slow PC issue.

For Windows

Operating System – Microsoft Windows 8, Windows 7, Windows Vista, Windows XP, Windows 2003 and Windows 2008

Supports 32-bit, 64-bit PC

The Minimum requirement for RAM is 512MB (Recommended, 1GB RAM) and you should have 50MB of free disk space to install the software.

Using Remo Optimizer

Walk through this page to know how to improve system performance by fixing registry issues and removing startup programs in few steps. It even, explains how to backup and restore registry files in one click.

This section also consists video tutorial and software download links.

Getting Started with Remo Optimizer

Download demo version of Remo AVI Repair tool for Windows [here](#).

Follow this Step by Step Guide to Improve your System Performance on Windows

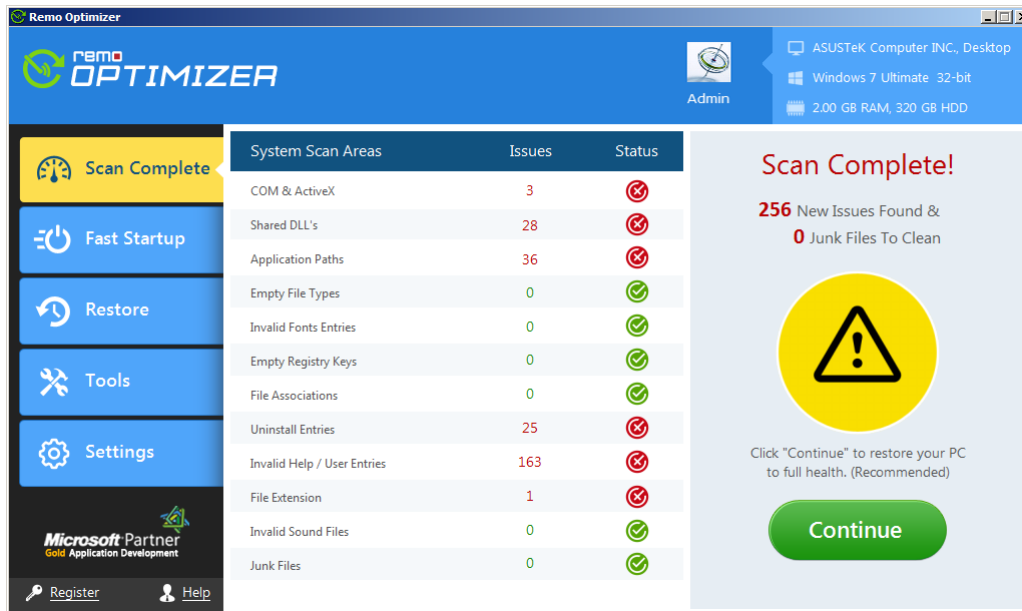

To fix all issues with your PC and increase system speed you need to Download Remo Optimizer on your desktop or laptop and double click on downloaded file (remo-optimizer.exe). Then launch the application and main screen appears with 5 different options on the left hand side- System Scan, Fast Start Up, Restore, Tools and Settings. As per the need chose the required option and follow the instructions:

System Scan

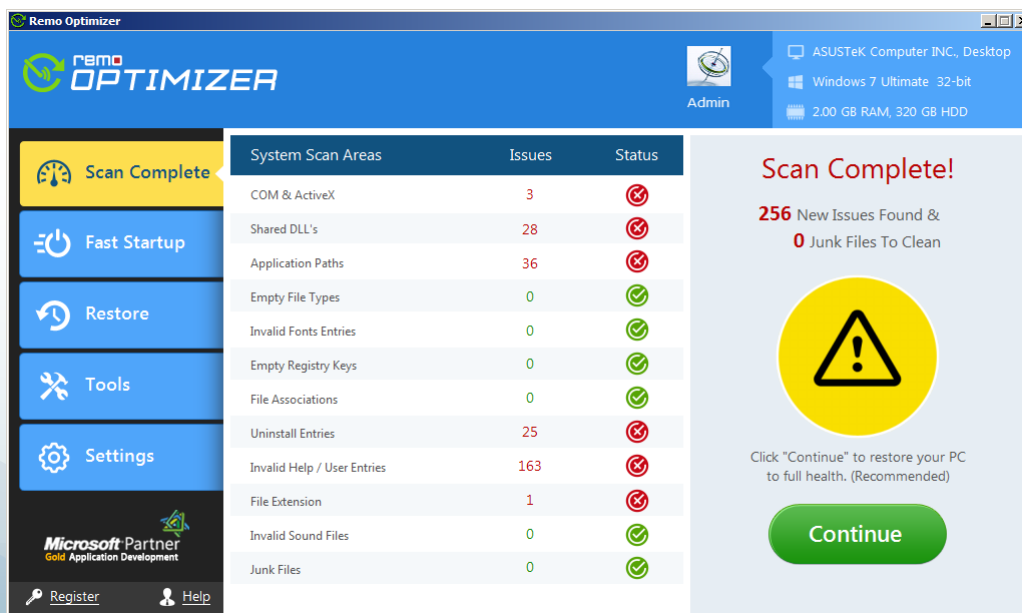

- As soon as you click “**System Scan**”, the software starts scanning and shows issues present in certain areas and number of junk files has to be cleaned from your system as in

System Scan Areas	Issues	Status
COM & ActiveX	4	⊗
Shared DLL's	76	⊗
Application Paths	15	⊗
Empty File Types	0	⊙
Invalid Fonts Entries	0	⊙
Empty Registry Keys	1	⊗
File Associations	0	⊙
Uninstall Entries	4	⊗
Invalid Help / User Entries	19	⊗
File Extension	0	⊙
Invalid Sound Files	0	⌚
Junk Files	0	⌚

- Next you need to “Select” or “Deselect” the item that needs to be removed and click on “Continue” to repair the issues

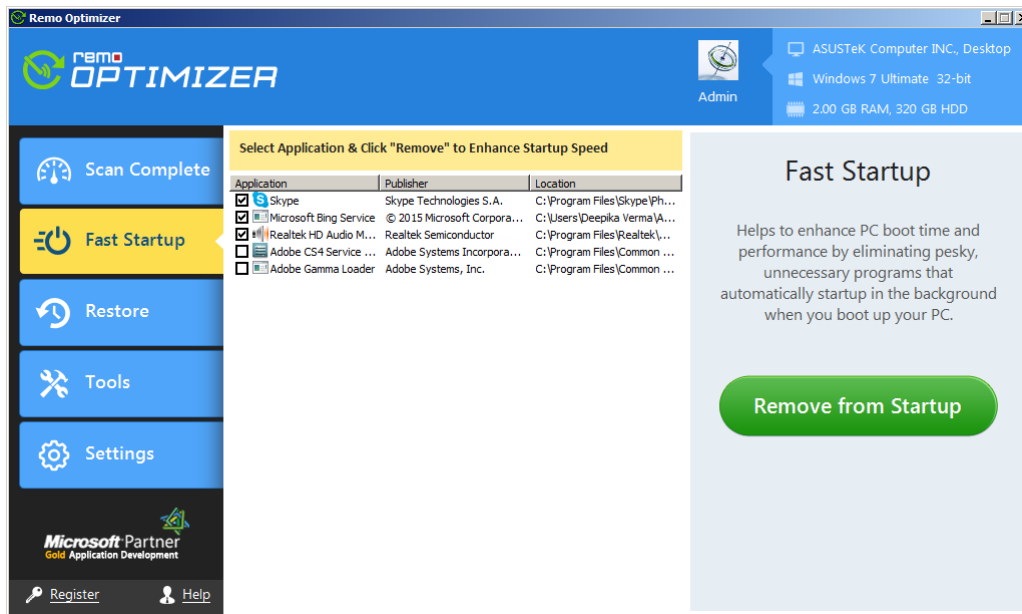

- In the next screen, select issues to repair and press “Fix Issues” button as shown here

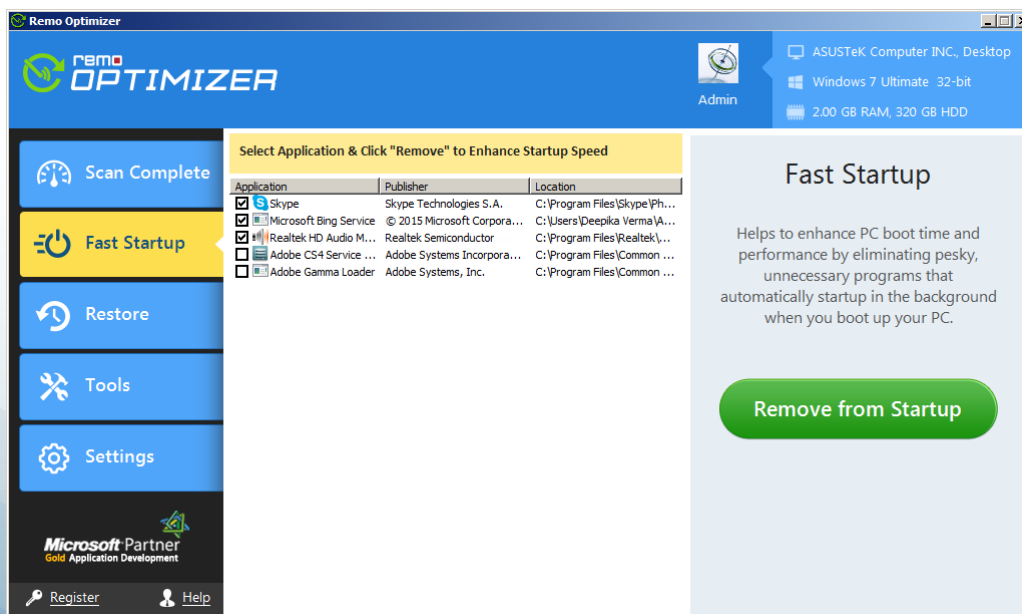

Fast Start up: To increase Windows booting speed just follow the below steps

- Click on “**Fast Start Up**” button and select the application which you don’t want to load while Windows boot up your PC

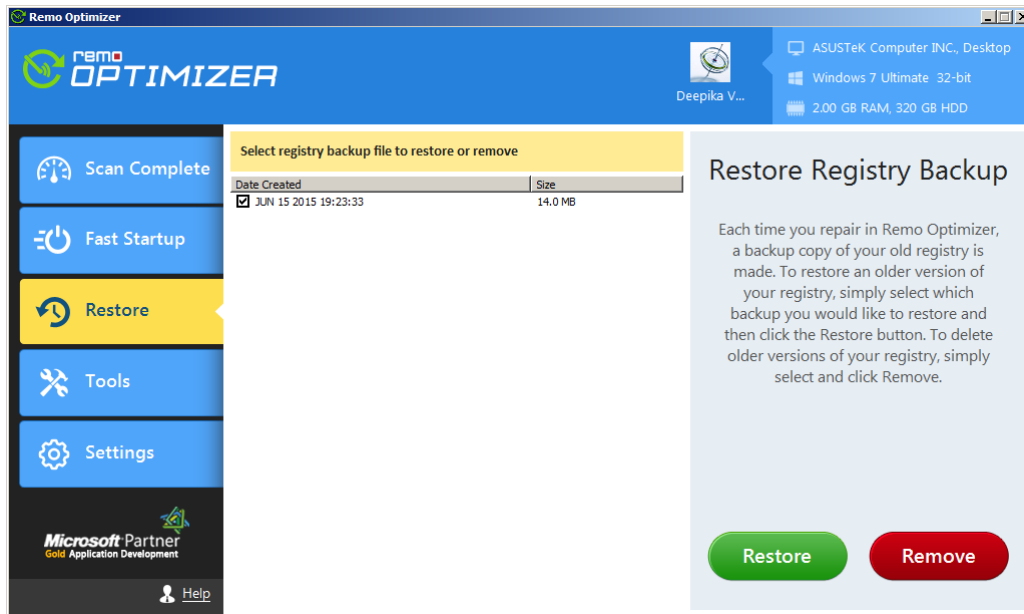

- Press Remove from Startup button – this will remove the item from startup list

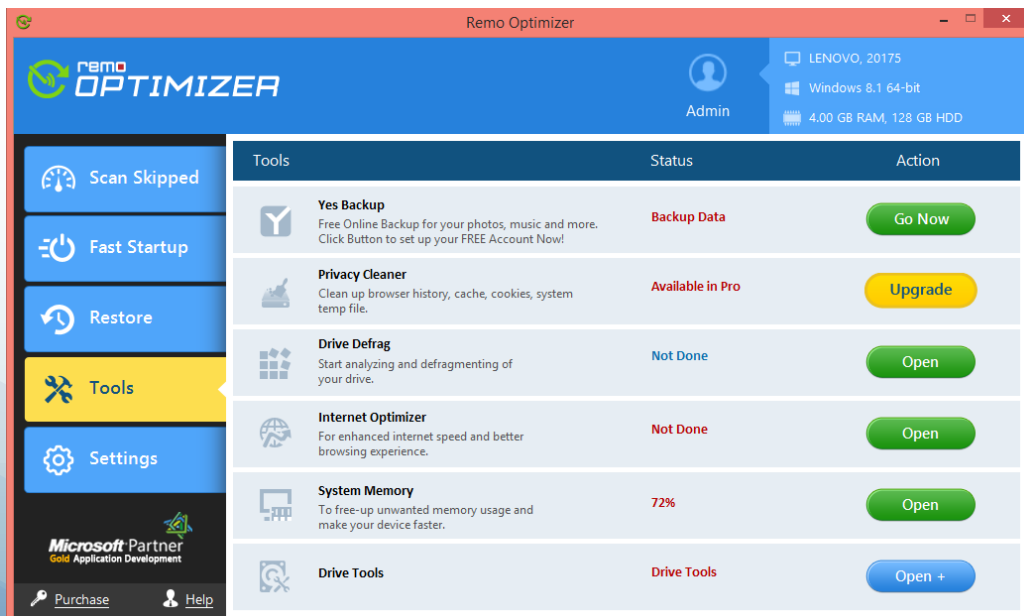

Restore: Restore back or Remove the backup copy of old registries by using these steps

- Now, select registry file which you want to restore back and press “**Restore**”
- In case, you want to remove the existing or old registry backup file click on “**Remove**” option

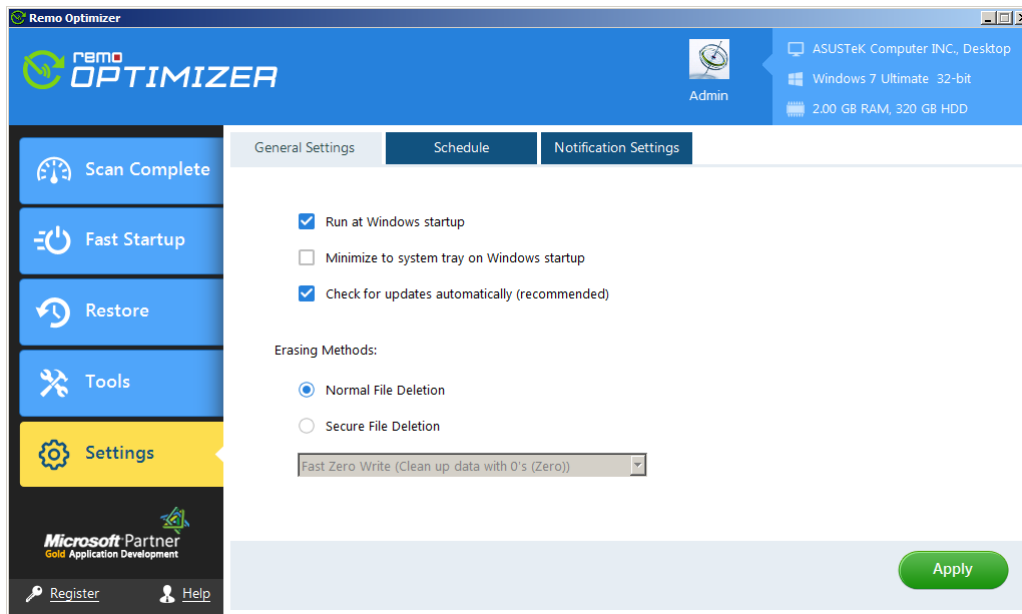

Tools: Lists all tools, select the required ones as per the need and follow the instructions.

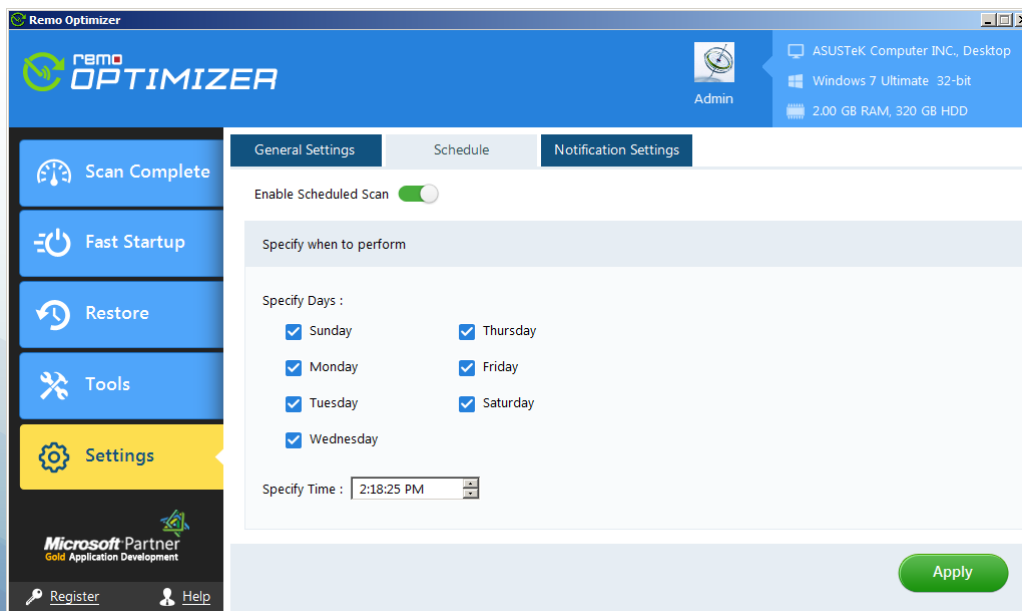

Settings: Here you can customize the scheduling and erasing options. This window contains 3 tabs – erasing methods, schedule and notification settings options.

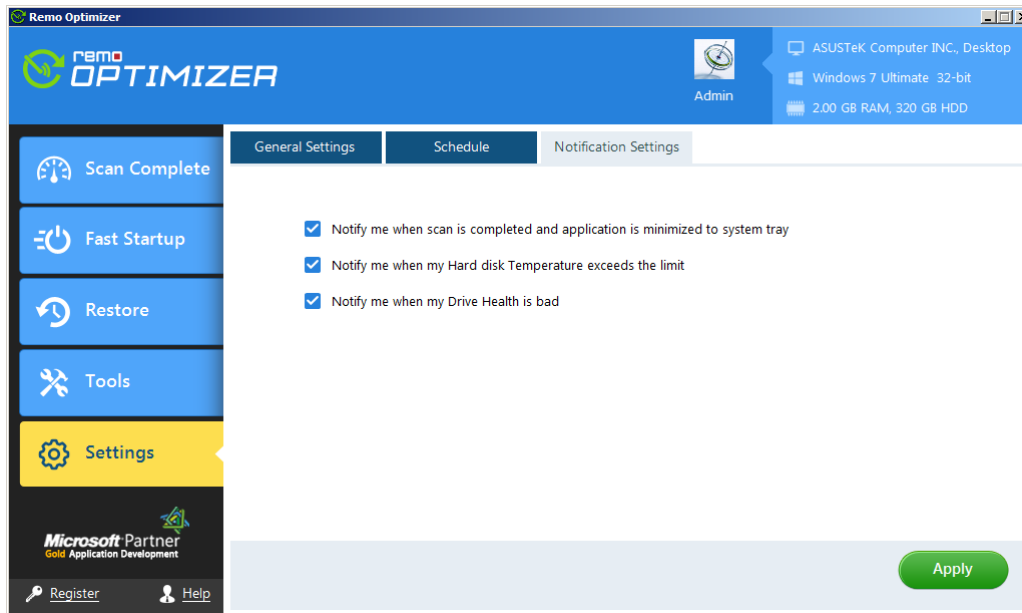

- **Erasing methods:** It has two types of erasing methods – Normal File Deletion & Secure File Deletion, select the required one from this and click on Apply.

- **Schedule:** You can schedule system scan by using Enable Scheduled Scan option. Even, you can select specific day and specific time to schedule it for automatic system scan.

- **Notification/settings:** You can select the check boxes to notify you about scan completion, exceeded hard drive temperature and bad HDD.

BARRON'S

Testimonials

“...My computer would slow down every month or so. I got the Remo Optimizer software and ran it. Immediately the computer was up to normal speed. I have found that the Remo Optimizer support staff to be helpful and patient. When I switched to a new computer my software programs did not transfer. I did not have my authorization code so I contacted the support staff. They were on it immediately! I received an email with a new code and detailed instructions on how to reactivate the program...”

- Dr Billy Kidd

“...Purchased Remo Optimizer in order to solve a problem with Windows 10 Update hanging up on downloads and never completing the update. I ran Optimizer and it did not work. Then I contacted Remo support and they downloaded another program that I ran and it worked very well, solving the initial problem. Remo support responded almost immediately to my request. Remo Optimizer also uncovered many problems with my registry that could potentially interfere with the proper operation of Windows 10...”

- Gerald Otis,
- United States

“...I've used Remo Optimizer Pro and it's been great. I had some issues and the support team fixed it within 10 minutes. They're GREAT !!!...”

- Gary Moore,
- United States

“...I have just installed Remo Optimizer on all my computers and the installations went well. When I ran the software it cleaned at least 500+ errors on each computer. Looks pretty good to me!...”

- Ron Howell,
- United States

“...Remo Optimizer keeps my computer running at top speed. Had a small issue with a pop-up appearing after paying for update, but the team quickly solved the issue and am back to using Remo Optimizer for another year...”

- Joe Boehm,
- United States
